

to approach and leave the drive-through facility, stacking areas for waiting vehicles, and the facility itself, such as a drive-up window or gas pump island.

### 33.510.242 Demolitions

- A. Landscaping.** In R, C, and E zones, sites must be landscaped within 6 months of the demolition of buildings unless there is an approved development for the site. Approved development means a project approved through design review in design zones, and issuance of a building permit outside of design zones. The landscaping must meet at least the L1 standard of Chapter 33.248, Landscaping and Screening, except that no shrubs or trees are required.
- B. Replacement of demolished ground floor area.** In R, C, and E zones, if a building is demolished after September 1, 1994, the square footage of the ground floor of the demolished building must be replaced as follows. Adjustments to the requirement of this subsection are prohibited.
1. In the Core Area, as shown on Map 510-8, the square footage must be replaced on the same block as the demolished building. This replacement must occur before or at the same time as any other development or redevelopment on the block, other than landscaping.
  2. Outside the Core Area, as shown on Map 510-8, the square footage must be replaced on the same site as the demolished building. This replacement must occur before or at the same time as any other development or redevelopment on the site, other than landscaping.
- C. Demolition on Type C sites.** If an applicant requests a demolition permit for a Type C site as shown on Map 510-14, and proposes development that requires compliance with Subsections 33.510.118.I. or J., a conditional use, or a Central City Parking Review (CCPR), the application for a demolition permit must include documentation that the requirements of those subsections are met, or that the required land use review has been approved.

**33.510.251 Additional Standards in the North Pearl Subarea.** Sites in the North Pearl Subarea south of the Fremont Bridge must meet the following standards:

- A. Special building height.** A special building height corridor shown on Map 510-19 is designated along NW 13th Avenue. In this corridor the portion of a building that is within 20 feet of the property line along NW 13th Avenue may be no more than 75 feet in height. Adjustments and modifications to this requirement are prohibited.
- B. Open area requirement.**
1. Purpose. The open area requirement promotes adequate amounts of light and air, year-round opportunities for outdoor active and passive recreation, visual relief from the built environment, and facilitates circulation for pedestrians to and throughout the North Pearl Subarea. The open area requirement is intended to produce open areas at a scale comparable to what large sites would have if divided by the 200 foot street grid pattern.
  2. The open area requirement.
